SUMMARY	Computer Forensics graduate with hands-on experience in software development, cybersecurity defence, and digital forensics. Experienced in leading development teams, developing web and mobile applications, and building award-winning cybersecurity solutions. Passionate about secure, scalable, user-focused technologies.	
WORK EXPERIENCE	Bank Rakyat Sdn. Bhd. Cyber Security Defence Intern Oct 2025 - Mar 2026	
	- Performed penetration testing to identify system vulnerabilities. - Investigated security events using cybersecurity and digital forensic tools. - Prepared technical findings and remediation documentation. - Gained practical exposure to endpoint security, incident response, and threat detection. - Help the staff with documentation and data entry.	
	AqWise Sdn. Bhd. Project Leader & Mobile Application Developer Intern Mar 2023 - May 2023	
	- Led a multidisciplinary team in developing iQuran4oku, an accessibility-focused mobile application. - Coordinated project planning, task allocation, and delivery milestones. - Designed intuitive UI/UX workflows for improved accessibility. - Developed Android application features using Android Studio. - Collaborated with stakeholders to deliver functional application solutions.	
SKILLS	Programming: HTML, CSS, JavaScript, SQL, Dart Forensics Tools: Autopsy, FTK Imager Tools: Office 365, Android Studio, Visual Studio, Wordpress, Virtual Machines	
PROJECT	Bachelor's Degree - Final Year Project (FYP) User Behaviour Analytics using Endpoint Detection and Response System June 2025	
	Developing a cybersecurity system that integrates User Behaviour Analytics (UBA) and Endpoint Detection and Response (EDR) to detect insider threats and respond to real-time security incidents. Exhibited during the 19th Management and Science University Idea Regeneration Expo (iReX) on 4th - 5th June 2025.	
	Diploma - Final Year Project (FYP) Web Inventory Management System using Barcode Scanner Dec 2023	
	Developed a web-based inventory management system for schools using barcode scanners to improve accuracy and reduce manual errors. Exhibited during Management and Science University Mini Exhibition and Talent Exploration (METEX) on 18th - 20th December 2023.	
EDUCATION	Bachelor in Computer Forensic Management and Science University Feb 2024 - Mar 2026	
	Diploma in Computer Forensic Management and Science University Sept 2021 - Feb 2024	
	Sijil Pelajaran Malaysia SMK Raja Chulan 2016 - 2020	
AWARDS	Gold Medal - Idea Regeneration Expo (iReX) 18th 2025 Awarded for the development of User Behaviour Analytics using Endpoint Detection and Response System. June 2025	
	Silver Medal - Idea Regeneration Expo (iReX) 16th 2023 Awarded for the development of Web Inventory Management System using Barcode Scanner. Jan 2024
